12th February 2021

Our Ref: MJ/HM/02/2021

Dear Parents and Carers

Year 9 GCSE Options – the next steps.

Assalamualaikum, I hope and pray this letter finds you in the best of health and Imaan.

I have already written to you and shared information about the special assembly to be held on Friday 12th February at 1.30pm. In this letter I am sharing more information which will help you and your daughter complete the options process and choose the right subjects to study further.

I attach an options form, which you will find in the forms section of parentmail, where you will need to indicate which humanities subject your daughter would like to study - either geography or history. Your daughter is also able to choose one other option. You should indicate on the form your preferred reserve choice option subject as we may not be able to guarantee a place in the subject your daughter may want to study as her first option choice.

Your daughter has already chosen her MFL options in year 7 and she will continue to study these at key stage 4.

Teachers have prepared Power Point slides for each option subject, which is attached via this email, sharing key information such as what units are studied and how this is assessed and I hope this will help to answer any questions you may have. Furthermore, you will find information on our website, in the curriculum section, where we have provided an overview of all subjects, which are studied at key stage 4.

The options form will need to be completed electronically and returned by Friday 26th February.

Please do take the opportunity to look through the PowerPoint slides and visit the website so that you can support your daughter to make the right choices for her future study at key stage 4. Please don't hesitate to contact me if you have any queries.

Yours sincerely,

Mufti Javid
Headteacher
