## HEADTEACHERS WELCOME

MR R PATEL

As we conclude another incredible term, I am delighted to reflect on the amazing and vast array of activities that took place over the blessed month of Ramadhan. It has truly been an enriching period for our school community, filled with spirituality, learning, and engagement in various inspiring initiatives.

Throughout Ramadhan, our students participated in a multitude of activities, enhancing their faith, character, and sense of unity. From collective prayers and Qur'an recitation to charitable efforts and reflections on personal development, it was heartwarming to see our young learners embrace the true essence of this blessed month.

In addition to our Ramadhan activities, our Year 11 students have been diligently preparing for their upcoming GCSE examinations, demonstrating great commitment and perseverance. We commend their efforts and encourage them to maintain focus as they approach this crucial period.

This term also saw the exciting introduction of our new Archery Club, allowing students to develop skills in precision, patience, and discipline. Additionally, we challenged our students' problem-solving abilities with a series of engaging Maths Challenges, fostering a deeper appreciation for mathematical thinking.

The English department presented a captivating school production linked to the curriculum, providing students with an opportunity to showcase their creativity and performance skills. Furthermore, our spirituality sessions continued to offer a reflective space for students to nurture their faith and well-being.

To top it all off, we concluded the term with the Ofsted Section 48 Inspection, a significant milestone for our school. We are grateful to all staff, students, and parents who contributed to this process, ensuring that our school's faith-based education and ethos were well represented.

As always, we extend our gratitude to our parents for their unwavering support. May the coming term bring continued success, growth, and many more enriching experiences for our students.

Jazakum Allahu Khairan for your continued support.

**Mr R Patel**  
Headteacher

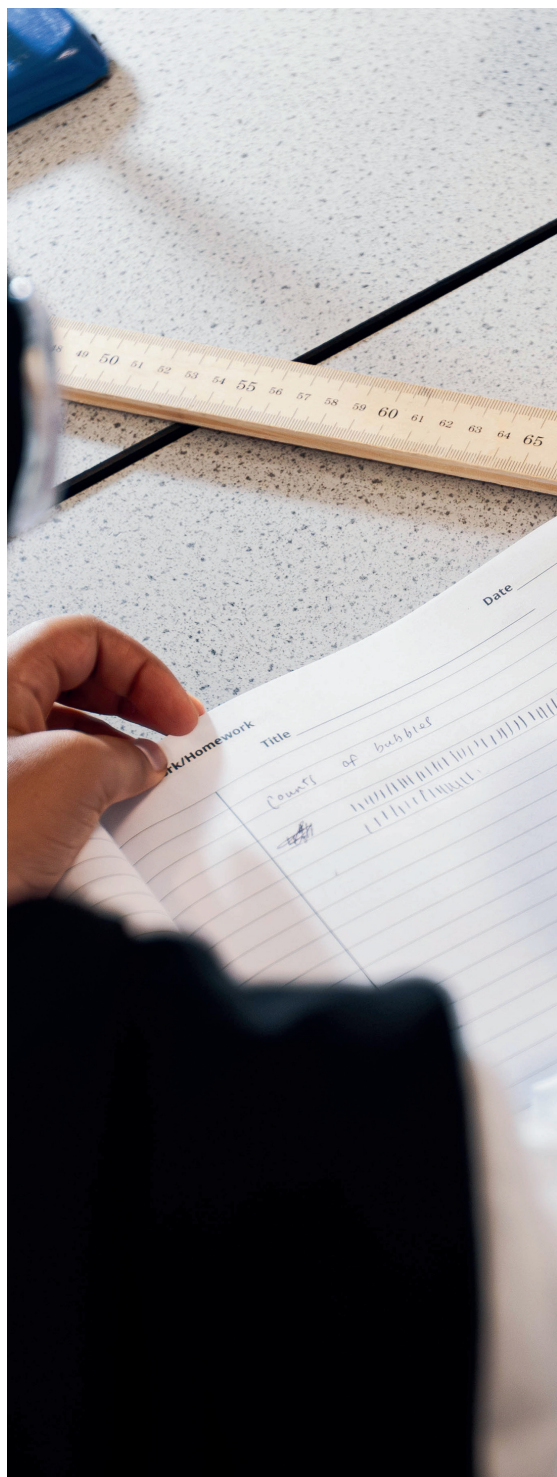

# MEET THE PUPIL

AAMINAH MATADAR

---

Salaams,

My name is Aaminah Matadar and I am a Year 10 student. I am currently the head girl of PMGHS whilst representing my form as a student shura representative. I am fascinated by how the world works, constantly seeking to expand my knowledge and understanding of various scientific concepts. In my free time, I enjoy staying active through my love of badminton and table tennis, which not only keeps me physically fit, but also allows me to engage in friendly competition and improve my skills.

## Why did I choose PMGHS?

Preston Muslim Girls High School stands out for its commitment to fostering a supportive community, promoting strong character development, and encouraging a love for learning. Not only does this school provide us with education, but it also allows us to explore Islamic perspectives, combining worldly knowledge with the spiritual teachings that shape our character and values. Also, the school's focus on community engagement and cultural awareness is a huge draw for me, matching my personal values and making it a place where I really belong.

## What is my favourite subject and why?

Overall, it is very difficult to choose a subject between all of them. However, My favourite subject is mathematics since it challenges my mind and sharpens my problem-solving abilities. I enjoy its logic and the comforting certainty that most problems do have a right answer. The subject provides a feeling of satisfaction, as every equation solved or difficulty overcome gives a sense of accomplishment. Mathematics finds its way into the real world in so many different ways, be it through technology, science, or even in the routines of daily life. It is this blend of practicality, reason, and creativity that makes maths both enjoyable and endlessly interesting to me.

## What would you like to do when you leave education?

My plan is to take A-level law, criminology and psychology. It's one of those professions in which you can keep growing, learning, and actually help people. I am drawn to it because it enables you to fight for others, represent rights, and help solve complex problems.

# ATTENDANCE AWARDS

## PASTORAL

Congratulations to all the pupils for achieving 100% attendance. Their dedication and commitment were commendable, and to celebrate this achievement, they were treated to some delicious pizza. Additionally, we recognised those pupils who excelled in their subjects. For their hard work during lessons and outstanding performance, they were treated to Hot Chocolate and Cookies. This occasion provided a chance to celebrate the accomplishments of all our pupils together. Well done to everyone, and keep striving for success!

# RAHMA MERCY - CHARITY

## SPIRITUALITY

Our school is proud to support Rahma Mercy, a UK-registered charity dedicated to aiding disadvantaged communities in the Balkans.

We are raising funds to contribute to their diverse projects, including the development of the Rahma Institute, which aims to provide both Islamic and secular education to children in Albania. This initiative seeks to foster social and economic change by offering quality education to those who need it most.

# ARCHERY CLUB

YEAR 10 & 11

PMGHS is thrilled to announce the successful launch of its new Archery Club, offering students a unique opportunity to develop skills, build confidence, and have a lot of fun along the way.

Since its inception, the girls have embraced this ancient and elegant sport with great enthusiasm. They've participated in engaging and competitive activities that brought out their teamwork, precision, and determination. Alongside the fun, they've been learning the fundamentals of archery—from mastering their stance and aim to perfecting their arrow release.

This fantastic initiative not only introduces students to a new and exciting sport but also fosters focus, discipline, and resilience. The club aims to provide a welcoming environment where every participant can thrive, whether they're honing their abilities or just taking their first shot.

PMGHS is incredibly proud of these budding archers and excited to see the heights they'll achieve. Here's to hitting the bullseye in both sports and life!

# ATHLETICS COMPETITION

YEAR 7 & 8

In January, a group of talented Year 7 and 8 pupils proudly represented our school at the Preston Schools Indoor Athletic Competition, held at Preston College. The event brought together students from across the area to compete in various track and field events, and our team delivered great performances! A big well done to all the participants.

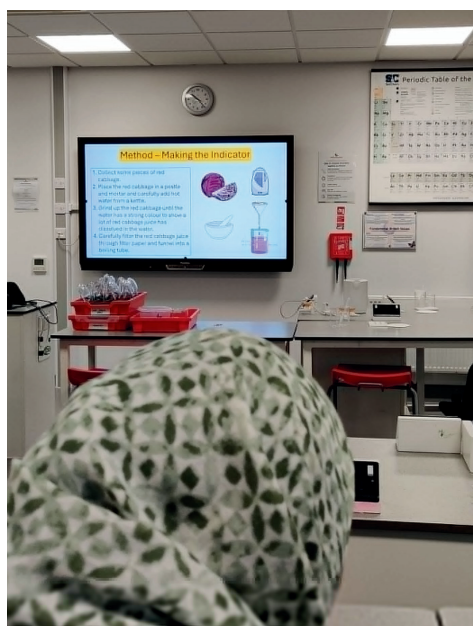

# BRITISH SCIENCE WEEK

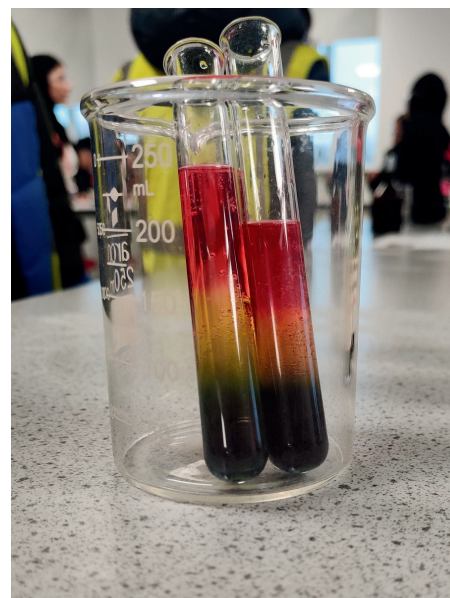

BSW 2025

British Science Week at our school was packed with excitement, curiosity, and hands-on learning! We welcomed visitors from the community and nearby schools to take part in fascinating scientific experiments, making this year's celebration truly unforgettable.

One of the highlights was a visit from the Community Grannies, who demonstrated the wonders of chemistry by making beetroot indicator. Pupils watched in awe as the natural pigment in beetroot changed colour when mixed with acids and alkalis, showing how everyday ingredients can reveal the hidden science around us.

We were also thrilled to host Deepdale Primary School, who brought an explosion of colour and excitement. Their pupils created rainbow fizz, a fun and fizzy experiment showcasing chemical reactions in a vibrant display. As if that wasn't exciting enough, they even set our teachers' hands on fire—safely, of course! Using a special methane bubble experiment, teachers were able to hold flames in their hands without harm, much to the amazement (and slight panic!) of the audience.

British Science Week was a fantastic opportunity for pupils to see science in action, ask questions, and develop a love for discovery. A huge thank you to all our visitors and participants for making it such an engaging and educational event. We can't wait to see what next year brings!

British Science Week this year was a blast! The theme of adapt and change really sparked everyone's curiosity, and one of the most fascinating things we got to see was how owls have evolved over time. During British Science Week, attendees were captivated by the presentations and demonstrations showcasing the incredible adaptations of owls. Experts shared insights into how these birds of prey have developed specialized features to thrive in their habitats, such as their keen night vision and acute hearing. The audience was amazed by the intricate details of owl anatomy and behaviour, shedding light on the evolutionary journey that has shaped these magnificent creatures. Learning about how these majestic creatures have adapted to their environments and changed their behaviours and physical attributes was mind-blowing. From their incredible camouflage abilities to their silent flight techniques, owls are truly remarkable animals. Getting to witness firsthand how they have evolved to become such efficient hunters was both educational and entertaining. It just goes to show that nature is constantly changing and adapting, and it's amazing to see the results of millions of years of evolution right in front of our eyes during British Science Week!

- **HALIMA MANJRA, YEAR 8**

Visiting Blackpool Zoo was an incredible experience that offered a unique opportunity to learn about the fascinating adaptations of various animals. Walking through the zoo, we observed how different species have evolved to survive in their environments. For example, the giraffes long necks, perfectly designed for reaching high tree branches, a clear example of nature's ingenuity. The zoos educational displays helped explain these adaptations in detail, highlighting the role of natural selection in adapting each animal features over time. This trip deepened our understanding of how animals are perfectly suited to their habitats and provided valuable insights into how nature is all beautiful, showing us how every species has developed its own unique strategies for survival.

- **HAADIYA TABASSUM , YEAR 9**

British Science Week this year was honestly the best I've ever experienced. As you may know, British Science Week is when we all gather to witness the beauty of science, and that's exactly what we did at Preston Muslim Girls High School! Our week began with an encounter with some incredible owls. We discovered that their ears are placed unevenly, giving them extraordinary sense of hearing. And their heart-shaped faces help direct sound to their ears. Watching their heads turn an impressive 360° was mesmerizing. All of them were incredibly huge and made different sounds! After, we played a thrilling board game about finding a cure for cancer.

It was both challenging and exciting at the same time. Additionally, we visited Blackpool Zoo! We were brought face-to-face with some of the world's most fascinating creatures! One of the biggest highlights was learning the key differences between seals and sea lions. Sea lions have external ear flaps and can walk on land using their strong front flippers, while seals are more suited for swimming and wriggling on their bellies when on shore. We watched in awe as sea lions showed off their agility in the water, gliding effortlessly through their pool. But the excitement didn't stop there! We stood just feet away from majestic elephants, admiringly watching them use their trunks with skill! The mighty lions lounged in the daylight, their intimidating demeanour made us a bit nervous. We also saw capybaras – the world's largest rodents – waddling around their enclosure, looking adorably relaxed. Every turn of the zoo brought a new surprise, making it a day full of discovery, wonder and unforgettable moments with some of nature's most incredible animals! British Science Week this year has been a really exciting week for me and most likely the rest of the school. It was really fascinating learnings about all these animals during this educational week!

- SARA ABDELAAL, YEAR 7

# A CHRISTMAS CAROL PRODUCTION

KS4

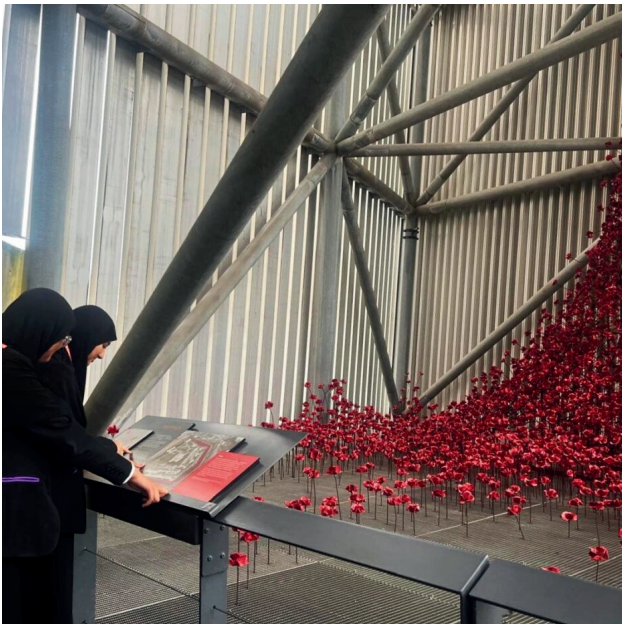

The English Department invited Quantum Theatre Company to perform Charles Dickens' A Christmas Carol, offering our pupils a truly immersive experience. This outstanding production transported them to the 19th century, allowing them to engage deeply with the story, themes and historical context of this key GCSE text. Dickens' timeless message about family, compassion and social responsibility remains as relevant today as ever, reminding us of the importance of kindness, generosity and community. This remarkable performance brought these enduring lessons to life in a meaningful and memorable way.

# IMPERIAL WAR MUSEUM TRIP

YEAR 9

Year 9 pupils embarked on a trip to the Imperial War Museum, an immersive experience designed to deepen their understanding of history and literature. This visit provided invaluable insights into the impact of war on the world, offering our pupils the opportunity to connect their English and History lessons with real-world context. Through this experience, pupils gained a more profound awareness of the effects of conflict, enriching their knowledge of both the world and the stories that shape our understanding of war.

# ESU DEBATE MACE

## ROUND 2

---

We are thrilled to share the exhilarating journey undertaken by three Year 9 students during the ESU Debate Mace Round 2. The ESU Debate Mace stands as the oldest and largest debating competition for schools, providing a platform for our pupils to engage with pressing global issues while refining their critical thinking and debating skills.

Under the guidance of Miss S Ugradar, our students have been diligently preparing for this debate. Through weekly lunchtime sessions filled with spirited discussions and rigorous practice, they have demonstrated dedication and enthusiasm in the second round of the competition, our debaters faced off against opponents from Lancaster Royal Grammar School. The motion, 'This House Would introduce a tax on fatty foods,' created intense deliberations and impassioned arguments.

They highlighted potential drawbacks such as food deserts, behavioural economics, and proactive strategies that address the underlying causes of unhealthy eating. Although they narrowly missed advancing to the final round, their performance was exceptional. Yasmine El Kadi stood out as a strong first speaker, handling rebuttals with style and sophistication. Halimah Patel overcame nerves to articulate her ideas clearly and in an organised manner. Afia Master showed remarkable growth in confidence throughout the competition. Despite being the youngest team, their progress is commendable. Yasmine, Halimah, and Afia are Round 2 Champions for North Wales & North-West England, a fantastic accomplishment. Their performance earned praise from teachers, parents, and ESU members, with special recognition from the judge for their teamwork and intellectual engagement. Congratulations to our talented debaters! Thank you to all the parents and guardians for their support.

# PREFECT ELECTIONS

2025

We recently held our annual prefect election assembly, an exciting event where Year 10 students have the chance to apply for the roles of Head Girl and Deputy Head Girl. This event is a key moment in our school year, giving students the opportunity to demonstrate their leadership abilities, vision for the future, and passion for our school community.

The Head Girl candidates campaigned fiercely, delivering heartfelt and inspiring speeches that highlighted their goals and aspirations. After the speeches, all pupils and staff participated in the voting process to elect their new prefect team. It was a proud moment for all involved, as each candidate showcased their commitment to making a positive difference within our school.

We are delighted to announce that Aaminah Matadar has been elected as Head Girl for the 2025-26 academic year, and Humerah Natha will serve as Deputy Head Girl. Congratulations to both on securing these positions – we're excited to see the leadership and dedication they will bring to their new roles.

A huge congratulations also goes out to our Senior Prefect Team, as well as to all the prefects who have been appointed roles this year. Your commitment, enthusiasm, and hard work will undoubtedly help make this year a memorable one. We're looking forward to seeing all of you take on your responsibilities and continue to inspire and lead our school community.

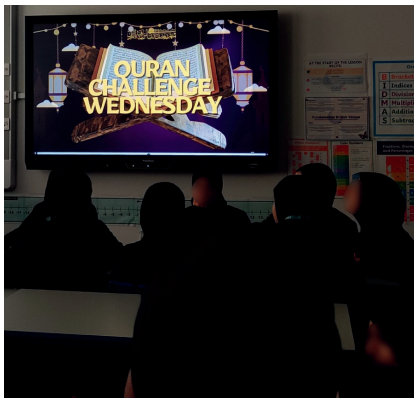

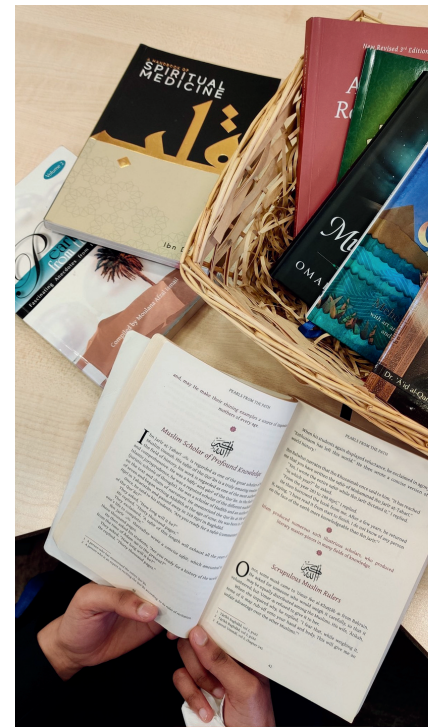

# RAMADHAN

2025

During the blessed month of Ramadhan, our school offers a range of enriching activities to engage and inspire our students. Each day, our girls participate in Daily Ramadhan Reflections and complete their Ramadhan Journals, allowing them to deepen their spiritual connection by reflecting on their strengths and areas for growth. Every Wednesday, we hold a Qur'an Challenge to encourage a deeper understanding of the Holy Qur'an. Our Thursday Guided Reading sessions provide a space for collective learning and discussion, focusing on stories within the Qur'an.

To enhance the Ramadhan spirit, students take part in decoration competitions, adding a festive and spiritual atmosphere to the school. Additionally, our Brunchtime Activities including Qur'an journaling, stories from the Qur'an, a reflection room, and a board games room - offer meaningful engagement, fostering a strong sense of community and faith throughout this sacred month.

During the month of Ramadan, pupils also participated in a Qur'an competition every Wednesday during brunch time. This initiative encouraged students to engage with the Qur'an and deepen their knowledge of its teachings. The competition provided a platform for pupils to test their understanding and recall of key verses, stories, and lessons from the Qur'an. Each week, students competed with one another in a friendly and supportive environment which not only enhanced their Qur'anic knowledge but also promoted teamwork, respect, and a stronger connection to the spiritual significance of Ramadan.

# ANNUAL IFTAAR MEAL

2025

On Friday the 21st March, we held a special Iftar event for our Year 11 students and staff, and Alhamdulillah, it was a wonderful success. The evening was filled with warmth, gratitude, and a sense of community as we broke our fast together and reflected on the blessings of Ramadhan. The atmosphere was uplifting as students and teachers came together to share food, dua, and inspiring reminders about the significance of Ramadhan and the virtues of Laylatul Qadr. It was heartwarming to see everyone supporting one another during this spiritual month, strengthening the bond between staff and students.

A huge thank you to all who attended and contributed to making this event so special. May Allah accept our fasts and grant us the full rewards of this blessed month, Ameen!

# MAYOR'S PARLOUR VISIT

SCOUTS

The Girl Scouts' visit to the Mayor's Parlour and chambers in Preston provided them with a valuable opportunity to explore local government, leadership, and the civic process. They gained insight into how decisions are made to benefit the community and how local politics shape their everyday lives. Sitting in the Chambers and engaging directly with the Mayor through the microphone was a memorable experience. One Girl Scout even boldly asked the Mayor if he was rich! This visit offered the Girl Scouts a firsthand understanding of leadership and civic responsibility. They had the chance to ask questions about the Mayor's role in the community, how he helps shape decisions, and what it's like to hold such an important office. The experience likely deepened their understanding of how local government functions and inspired them to think more critically about their own roles in society.

# IFTAAR UNDER THE STARS

## SCOUTS 2025

The Girl Scout sleepover with Iftaar under the stars was a truly memorable experience, blending the excitement of camping with the spiritual beauty of Ramadan. The Scouts engaged in a variety of activities, including lantern-making from tin cans, tent building, creating flower bouquets, preparing prophetic fruit kebabs, and organizing an Iftaar for 100 people.

A special focus was placed on "dua visualization," where the Girl Scouts made heartfelt prayers during Iftaar in a unique and meaningful way. A local Ustaadha led this session, leaving a lasting impact on the Scouts' approach to making dua.

Praying in congregation at Masjid e Salaam, following the Imam through 20 long rakahs of Taraweeh, was both a challenge and a joy, especially as the melodious recitation of the Qur'an filled the mosque.

Fundraising for four local charities through a Ramadan Bazaar was a rewarding experience, allowing the Scouts to serve local women and girls while also having the opportunity to purchase gifts and treats for themselves. Alhamdulillah we were able to raise a total over £1500.

Singing beautiful nasheeds and qiraats as a full Scouts group further uplifted the atmosphere, creating a sense of unity and joy. As a special memento of the event, Girl Scouts were able to purchase limited edition badges, serving as a unique reminder of this enriching experience. The time spent together with friends during the Scouts Sleepover was an added bonus, fostering camaraderie and lasting memories. May the Almighty grant us another blessed Ramadan in the near future, insha'Allah.

# NSPCC CHARITY

## NUMBER DAY 2025

The Year 8 pupils had great fun organising a bake sale to raise money and awareness for a very worthy charity - NSPCC.

NSPCC this year was held on Friday 7<sup>th</sup> February 2025.

Pupils donated and sold cupcakes, brownies, doughnuts and many other sweet treats to raise, giving up their lunchtime to help set up and sell.

They raised well over £150 in one lunchtime. Well Done! and Thank you for everyone who supported the pupils.

# UKMT CHALLENGE

## YEAR 9 & 10

At the start of the sprint term, top set Year 9 & 10 pupils sat the intermediate UKMT Challenge. JazakAllah to the set 1 Year 9 & 10 staff for preparing the pupils for the challenge and for the pupils for taking part!

MashaAllah, a huge well done to Fatima Badat, Year 9 for her score on the intermediate mathematical challenge and for earning herself a place in the Grey Kangaroo 2025 follow-on round. This is a huge achievement so a massive well done!

# STEM

## ENRICHMENT

Year 8 students took part in a STEM activity where they were challenged with coming with an idea of using Technology to solve a real-world problem. Some of the ideas included a drone which could plant trees in remote parts of the world, an APP for homeless people to be able to find free food from local restaurants and supermarkets and a fish drone which could help clean up the rubbish from oceans around the world.

Students worked in teams, to plan, design and create a prototype for their chosen idea. They then had to present their findings to Mr Mitchell and Mrs Kalang. Out of all the entries, 3 groups were chosen, who will now go on to represent the school at the Teen Tech festival Edge Hill University in June 2025.

# TREE PLANTING

## SCOUTS

Deepdale Central Girl Scouts did a great job with their environmental project by planting trees. Activities like this are perfect for earning a World Badge, as they not only help the environment but also teach scouts about sustainability, teamwork, and global citizenship.

Above all, the Girl Scouts enacted the following hadeeth: "There is none amongst the Muslims who plants a tree or sows seeds, and then a bird, or a person, or an animal eats from it, but is regarded as a charitable gift for him" (Sahih Bukhari)

# OUTDOOR SKILLS

## SCOUTS

Teaching Girl Scouts how to make a fire and cook outdoors provides an excellent opportunity for them to develop essential survival skills while engaging with nature. These activities not only enhance their understanding of outdoor techniques but also promote teamwork, as scouts often collaborate to gather materials, set up the fire, and cook their meals together. Through this process, they cultivate important skills such as problem-solving, communication, and leadership, which are invaluable for their personal growth and development. This hands-on learning experience fosters a sense of responsibility, self-reliance, and cooperation, preparing them for future challenges both in and outside of outdoor settings.

Another essential outdoor skill that the Girl Scouts learned was tent building. The group collaborates to carefully lay out the tent, assemble the poles, and properly insert them into the tent body, ensuring an efficient and effective setup. Mastering the process of setting up and striking down tents is not only crucial for successful camping trips but also serves as an excellent opportunity to develop confidence, responsibility, and a strong sense of achievement. Additionally, this activity provides a fun and engaging experience, enhancing the overall learning process. The Deepdale Central Scouts are gaining valuable skills while enjoying their time outdoors.

# EMMAUS - HOMELESS CHARITY

## SCOUTS

Volunteering at local charities like Emmaus provides Girl Scouts with valuable opportunities to serve the community and develop essential life skills. At Emmaus Preston, scouts have actively contributed by sorting donated clothing, preparing items for sale, and organizing the shop floor to enhance the shopping experience. These tasks not only support the charity's mission but also foster teamwork, responsibility, and a sense of accomplishment among the scouts.

The Deepdale Central Scouts express sincere gratitude to Emmaus for allowing them to contribute to this important cause. The charity shop is one of Emmaus' social enterprises, where companions—individuals who have experienced homelessness—engage in work to regain a daily routine and restore their dignity after long periods of living on the streets. Emmaus is well-regarded for its commitment to supporting those who have faced homelessness, and the involvement of the Girl Scouts helps raise awareness of critical social issues. Their participation fosters empathy, teamwork, and a sense of service among young people. Furthermore, the Girl Scouts thoughtfully contributed by preparing warm, hearty desserts for the companions, offering comfort and creating a sense of home.

This experience must have been profoundly impactful for the Girl Scouts, as they had the opportunity to directly contribute to making the companions feel cared for and valued.

# CAREER TALKS

## PRSHE

We invited local professionals into school to talk to our pupils about their unique career journey as part of the Careers focused PRSHE lesson. This was a valuable opportunity for the pupils to hear firsthand what different careers are like. Pupils had the opportunity to listen to professionals that included professionals from the NHS, law experts and STEMs related professionals. The guest speakers talked about what qualifications they studied and what inspired them to choose their career path. Pupils also had the opportunity for a Q&A session. The goal of Career Talks is to equip pupils with the inspiration and information, and to make better informed decisions about their future career paths.

# CELEBRATION ASSEMBLY

## END OF TERM

Our End of Term Celebration Assembly is a special occasion dedicated to recognizing and celebrating the hard work, dedication, and achievements of our pupils. A huge well done to everyone for their efforts throughout the term! During the assembly, we present subject awards to commend academic excellence, as well as the esteemed Muslimah and Headteacher Awards to acknowledge outstanding character and contributions. Additionally, we take this opportunity to celebrate pupils with excellent attendance, highlighting their commitment to learning.

It's a wonderful way to end the term on a positive note, inspiring our pupils to continue striving for success!
